

NikkiBushTV Episode 3: Toys and games for babies and pre-schoolers

- **Fisher Price Record Player, R550, ToyTalk.co.za and large retailers** - Now this is a walk down memory lane for those parents old enough to remember! This retro record player from 1971 is back. It features 10 songs on five records which are stored conveniently inside the record player. A carrying handle enables your child to walk around while playing music too. A real classic that has great entertainment value. **Ages: 3 - 5**

- **Melissa & Doug Vacuum Playset, R390, ToyTalk.co.za and independent toy stores** - A wooden vacuum cleaner that 'sucks' up wooden food items when pushed over them and makes for a great fantasy play item. Little children love to imitate their parents or caregivers in doing the chores and they also love to make things disappear. This hits both these buttons. **Ages: 2 - 4**

- **Yookidoo® Pull-Along Duck, R350, ToyTalk.co.za and large retailers** - Little ones take the Pull Along Duck with them wherever they go as they develop balance and coordination. They won't want to leave their new musical friend alone or the ducky will whistle until they come back! And, this 2-in-1 toy also develops hand-eye coordination and an appreciation of cause-effect when they play with the detachable roll-along cylinder that spins when on the duck's back or can be used as a stand alone rattle or fascination toy. **Ages: 6 months to 2 years**

- **Little Tikes Bop the Top Activity Garden Stacker, R150.00, ToyTalk.co.za and large retailers** - If you want to grab a sitting baby's attention, why not stack the cups on top of the turtle? Press down on the top cup to watch the turtle shake them all off! A fun, eye-hand co-ordination game full of surprises! **Ages: 6 - 18 months**

NikkiBushTV Episode 3: Toys and games for babies and pre-schoolers

- **Learning Resources Design & Drill, R575, ToyTalk.co.za** - Wow, a creative construction set that provides children with a similar experience to using a pegboard for fine-motor co-ordination activities but with the fascination of using a battery powered drill! It will get young designers drilling colourful patterns of their own into the design board or following the patterns included in the booklet. Copying a picture is an acquired skill, as is being able to create freely from one's own imagination. This product allows both to happen. Fabulous for stimulating gross motor skills in the shoulders and arms for holding the drill in place, and fine-motor skills for switching the drill bits and pressing the 'on' and 'reverse' button.

Ages: 3 – 5 years

- **Goldiblox Spinning Machine, R450, ToyTalk.co.za and independent stores** - The award-winning Goldiblox construction sets for girls have arrived! Goldie, the inventor, builds a spinning machine to help her dog, Nacho, chase his tail. By using spatial skills, engineering skills and problem solving, help Goldie build a belt drive machine to spin Nacho and all her friends. Includes a story book, 5 animal figurines, 1 pegboard, 5 wheels, 10 axles, 5 blocks, 5 washers, 1 crank and a ribbon. In the same series you will also find Goldiblox and the Dunk Tank and Goldiblox and the Parade Float.

Ages: 5 – 7 years
